Tab 4:

Service Approach and Methodology

In this tab, offerors should provide, in detail, their approach to fulfilling the scope of services being solicited by this RFP and demonstrate their compliance with the requirements of the Scope of Services. If subconsultants are to be utilized, provide the services that they will be providing. Offerors should provide detailed information and applicable samples as to the packaging for supplying all medications and supplies. Additionally, offerors should provide a statement that describes what steps will be taken to ensure the quality of deliverables and what steps will be taken to correct errors or faulting products and documents.

Westwood Response: Comply

By retaining Westwood Pharmacy as your pharmacy service provider, HCSO avoids the “pain of change” associated with a new system and new provider, *thereby allowing HCSO to receive both cost and time savings*. For example, Westwood Pharmacy has an established and successfully seamless integration to your current HealthSecure EMR. HCSO, as a result, receives the benefit of savings in both cost and manpower. Additionally, we are familiar with your billing structure thereby eliminating the hassle of learning a new billing system. As your current provider, Westwood Pharmacy will continue assisting in the design and implementation of policies, procedures, and protocols for medication distribution and control. Westwood Pharmacy schedules a review on current policies and procedures to ensure up-to-date material and content. Our team continues working diligently with your staff to make any necessary updates or edits to those current policies and procedures. Simply put, your patients receive continuity in care and HCSO experiences *NO disruption to services or support*, and your staff members can focus on their work rather than enduring the stress of implementing a new system. Every facet of service and support from ordering, daily deliveries, integration, data analysis, invoicing, formulary management – and everything in between – continues without delays, flaws, or disruption.

Tab 5: Exceptions

In this tab, offerors shall list any exceptions taken to the Scope of Services and General Terms and Conditions of this Request for Proposals. The County intends to make the RFP and the Successful Offeror's proposal a part of the contract between the parties, so Offerors should list any exceptions for purposes of negotiating the contract.

Westwood Response: Comply

Westwood Pharmacy takes no exceptions related to this Request for Proposal. We fully understand and comply with all requirements, goals, and objectives as defined by Henrico County.

Tab 6:

Assumptions
